Page lang ang nawala hindi ako.
Dalawang beses nawala ang mga page ko...
pero hindi nila kayang burahin ang katotohanan.
Hindi ito simpleng pagkawala—ito ay patunay na may mga natatamaan, may mga naiilang, at may mga gustong patahimikin ang boses na lumalaban sa mali.
Sa gobyernong nilalamon ng kurapsyon, sa mga lider na inuuna ang sariling bulsa kaysa sa bayan—hindi ako titigil.
Hindi ako bayad. Hindi ako takot.
Isa lang akong mamamayan na sawang-sawa na sa panlalamang, sa pandarambong, at sa sistemang bulok.
Kung akala ninyo mawawala ako dahil nawala ang page—nagkakamali kayo.
Mas lalakas lang ako. Mas dadami pa kami.

President Donald Trump said on Monday, April 6, he believes God supports the United States in the war against Iran.

When asked if he believes God supports the United States, Trump answered, "I do".

Trump's Defense Secretary Pete Hegseth drew comparisons between Jesus' crucifixion and resurrection with the downing of a U.S. airman over Iran on Friday, April 3, and his subsequent rescue on Sunday, April 5.

In a separate message over the weekend that invoked religion in another way, Trump threatened on social media to strike power plants and bridges in Iran, urged Tehran to open the Strait of Hormuz, "you crazy bastards" or face "living in Hell," and signed off with the phrase "Praise be to Allah."

Long range guidance in the western pacific still looking interesting, remember this is long range and lots of uncertainty. But at this time invest 90W still looking like it will develop near Guam as a tropical system. Then it could drift west into the Philippine Sea through mid-April. Does this mean a typhoon is heading towards the Philippines? No.. does it mean we should watch it. For sure..

KITTY'S BGC NIGHTOUT

LOOK: Kitty Duterte was spotted partying at a bar in Bonifacio Global City (BGC), and the sighting quickly stirred reactions online.

Some netizens said there was nothing wrong with it, noting that she is free to live her life and go out with friends if she wants to.

Others, however, questioned her timing, pointing out that her father, former president Rodrigo Duterte, is currently detained in The Hague.

When Duterte allowed businesses to operate in June 2020, there was still no free mass testing, no proper contact tracing, and no free face masks.
Duterte refused to provide the public with the most basic pandemic requirements like face masks.
This, as he told his police to arrest people who weren't wearing any, further endangering people's lives by putting them in cramped jails.
That we are now looking at the worst Covid-19 numbers in Southeast Asia, is a measure of how Duterte and his people mishandled this crisis.
Duterte propaganda has sought to erase what we know for sure, a year after the March 2020 lockdown

Puro mga small time users at pushers lang sumuko, hinuli at merong mga p*natay. Walang drug lord na sumuko. Walang drug lord na hinuli at walang drug lord na p*natay. Ang kanyang mga prinsipyo at tapang ay nagsisilbing liwanag sa ating landas tungo sa kalayaan at katarungan. Ipinakilala niya sa atin na ang pagmamahal sa bayan ay hindi lamang isang obligasyon, kundi isang karangalan. Sa kanyang pag-alala, muling bumangon ang ating damdamin ng pagmamalaki bilang mga Pilipino. Sa bawat hakbang ng ating laban, dala-dala natin ang kanyang diwa at mga pangarap para sa mas makatarungan at mas nagkakaisang bayan. Sa huli, ang Pilipino ay talagang karapat-dapat ipaglaban at ipagmalaki.

Isang bagyo ang posibleng mabuo sa malayong silangan ng Pilipinas sa susunod na linggo, ayon sa ipinapakita ng mga weather model.

Sa Google DeepMind, makikita ang posibleng pamumuo ng bagyo malapit sa Guam at Mariana Islands sa susunod na linggo at may posibilidad na maging isang 'Typhoon.'

HINDI PA TIYAK kung ito ay lalapit o makakaapekto sa Pilipinas sa mga susunod na araw. Patuloy na maging updated!

"Former President Rodrigo Duterte is facing serious health concerns, not only from Ligma Degenerative Syndrome (LDS), but also from a growing gooning deficiency due to restrictions imposed by the International Criminal Court, in clear violation of Rule 34. I strongly recommend the ICC to let him goon.
This Holy Week, I suggest the ICC show humanity to the most beloved miscreant President in Philippine history. He must be released to recover in Davao City with his family."

‘SYMBOLISM IS NOT AN EXCUSE FOR SUFFERING’

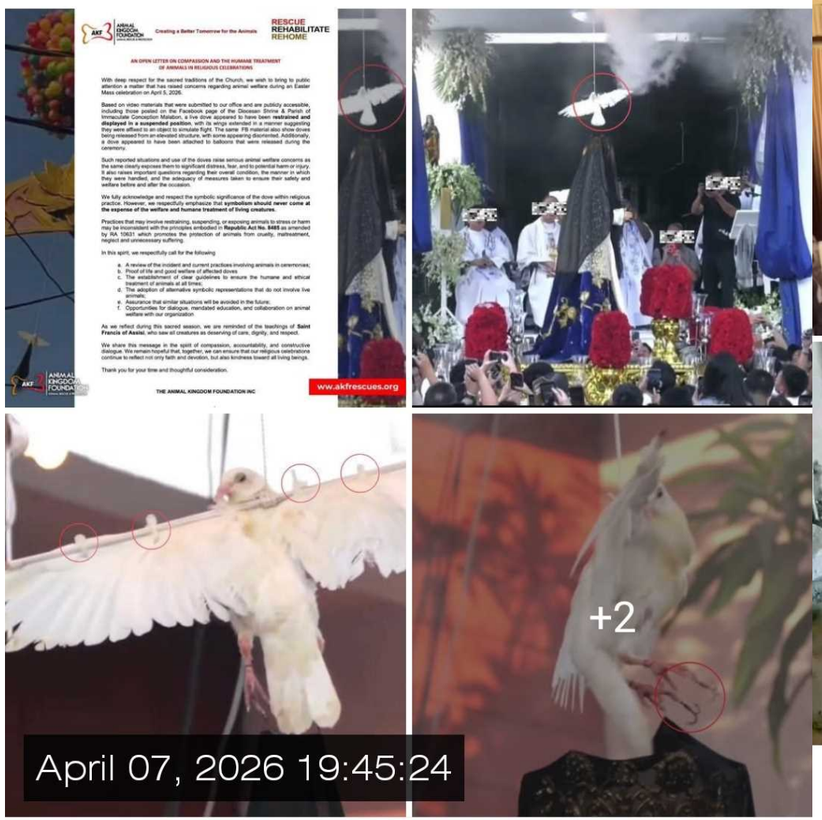
Naglabas ng open letter ang Animal Kingdom Foundation para manawagan ng maayos na pagtrato sa lahat ng tao at hayop.

Ito ay matapos mag-viral ang video ng isang kalapati na ginamit sa isang religious celebration nitong Easter Sunday sa Diocesan Shrine & Parish of Immaculate Conception Malabon.

Makikita sa video na tila tinali ang pakpak ng kalapati sa isang bakal para manatili itong nakabuka.

“We remain hopeful that, together, we can ensure that our religious celebrations continue to reflect not only faith and devotion, but also kindness towards all living beings.”

📷 Animal Kingdom Foundation



RESCUE
REHABILITATE
REHOME
AN OPEN LETTER ON COMPASSION AND THE HUMANE TREATMENT OF ANIMALS IN RELIGIOUS CELEBRATIONS
With deep respect for the sacred traditions of the Church, we wish to bring to public attention a matter that has raised concerns regarding animal welfare during an Easter Mass celebration on April 5, 2026.
Based on video materials that were submitted to our office and are publicly accessible, including those posted on the Facebook page of the Diocesan Shrine & Parish of Immaculate Conception Malabon, a live dove appeared to have been restrained and displayed in a suspended position, with its wings extended in a manner suggesting they were affixed to an object to simulate flight. The same FB material also show doves being released from an elevated structure, with some appearing disoriented. Additionally, a dove appeared to have been attached to balloons that were released during the ceremony.
Such reported situations and use of the doves raise serious animal welfare concerns as the same clearly exposes them to significant distress, fear, and to potential harm or injury. It also raises important questions regarding their overall condition, the manner in which they were handled, and the adequacy of measures taken to ensure their safety and welfare before and after the occasion.
We fully acknowledge and respect the symbolic significance of the dove within religious practice. However, we respectfully emphasize that symbolism should never come at the expense of the welfare and humane treatment of living creatures.
Practices that may involve restraining, suspending, or exposing animals to stress or harm may be inconsistent with the principles embodied in Republic Act No. 8485 as amended by RA 10631 which promotes the protection of animals from cruelty, maltreatment, neglect and unnecessary suffering.
In this spirit, we respectfully call for the following
a. A review of this incident and current practices involving animals in ceremonies;
b. Proof of life and good welfare of affected doves
c. The establishment of clear guidelines to ensure the humane and ethical treatment of animals at all times;
d. The adoption of alternative symbolic representations that do not involve live animals;
e. Assurance that similar situations will be avoided in the future;
f. Opportunities for dialogue, mandated education, and collaboration on animal welfare with our organization
As we reflect during this sacred season, we are reminded of the teachings of Saint Francis of Assisi, who saw all creatures as deserving of care, dignity, and respect.
We share this message in the spirit of compassion, accountability, and constructive dialogue. We remain hopeful that, together, we can ensure that our religious celebrations continue to reflect not only faith and devotion, but also kindness toward all living beings.
Thank you for your time and thoughtful consideration.

"BAWAL NA DAW MUNA FULL TANK?" ⛽🤔

Naglabas ng mungkahi si Terry Ridon kaugnay ng paggamit ng gasolina sa gitna ng usapin sa suplay ng petrolyo.

Ayon sa kanya, maaaring isaalang-alang ang paglilimita ng pagbili—tulad ng hanggang half tank lamang para sa mga hindi essential na sasakyan—upang makatulong sa mas maayos na distribusyon ng suplay.

Ipinunto rin niya na maaaring mas praktikal ito kumpara sa mas mahigpit na "rationing," lalo na sa panahon ng hindi tiyak na sitwasyon sa energy supply.

Ang naturang mungkahi ay nagbukas ng diskusyon online tungkol sa pagtitipid, supply management, at epekto nito sa mga motorista.

JUST IN | **MILITARY TARGETS SA KHARG ISLAND SA IRAN, GINBOMBAHAN SANG ESTADOS UNIDOS**

Ginbombahan sang Estados Unidos ang military targets sa Kharg Island sa Iran lakip na ang bunkers, radar station, kag ammunition storage.

Ang Kharg amo ang isla sa northern end sang Gulf nga malapit sa syudad sang Bushehr. Halos 90% sang oil exports sang Iran ang nagaagi sa sini nga isla. Ginakabig ini bilang "most sensitive economic target."

Natabo ang pagpang-atake antes ang deadline nga ginhatag ni Trump sa Iran agud makignegosyar.

Santo sa pinaka-ulihi nga gindeklarar ni Trump, may kutob lang Martes sang gab-i ang Iran agud nga magsugot sa negosasyon, bangud kun indi suno sa presidente, maga-atake sang mas mabaskog ang US.

As of this writing, alas singko sa hapon ang oras sa Tehran.

Vanity Fair has edited a controversial moment from their latest segment with the ‘SNL’ cast, in which Chloe Fineman reveals why she was fired as a camp counselor when she was 16.

Fineman revealed she pantsed a 6-year-old boy who wasn’t wearing underpants:

“I pantsed a boy and he wasn’t wearing underpants. And then a giant school bus drove by. He would like lift my shirt all the time. He was like 6… It was a different time. He would be like ‘Hey can I have a hug?’ And I’d go to hug him and then he’d lift my shirt up like a d*ck. I was like ‘I’m gonna get back at you’ and so we were on a hike, and I was like ‘Hey Ollie, go look over there it’s a hawk!’ and then I yanked his pants down. He wasn’t wearing underwear, his little ding-a-ling was out, and then these two twins were like ‘Ollie I didn’t know you didn’t wear underwear.’”

@realDonaldTrump
Based on conversations with Prime Minister Shehbaz Sharif and Field Marshal Asim Munir, of Pakistan, and wherein they requested that I hold off the destructive force being sent tonight to Iran, and subject to the Islamic Republic of Iran agreeing to the COMPLETE, IMMEDIATE, and SAFE OPENING of the Strait of Hormuz, I agree to suspend the bombing and attack of Iran for a period of two weeks. This will be a double sided CEASEFIRE! The reason for doing so is that we have already met and exceeded all Military objectives, and are very far along with a definitive Agreement concerning Longterm PEACE with Iran, and PEACE in the Middle East. We received a 10 point proposal from Iran, and believe it is a workable basis on which to negotiate. Almost all of the various points of past contention have been agreed to between the United States and Iran, but a two week period will allow the Agreement to be finalized and consummated. On behalf of the United States of America, as President, and also representing the Countries of the Middle East, it is an Honor to have this Longterm problem close to resolution. Thank you for your attention to this matter! President DONALD J. TRUMP

RUEDAS, VIOLETA B. CECILIO, GERALDINE J. DENOGA, and NATHANIEL G. CABRERA,**
Respondents.

x----------

PETITION FOR CERTIORARI AND PROHIBITION
[With Urgent Application for Temporary Restraining Order and/ or Writ of Preliminary Injunction]

Petitioner, by counsel, respectfully states:

1. This is a Petition for *Certiorari* and Prohibition under Rule 65 of t Rules of Court seeking to declare as void *ab initio* the impeachment complaints agai the petitioner and committee proceedings arising therefrom, including any and incidents relative thereto because:

urgent need to prevent irreparable injury on the part of the petitioner who would otherwise be made to confront baseless accusations against her in a public "mini trial" before the respondent Committee on Justice and thereafter, the respondent Senate acting as an impeachment court, should the respondents HOR and Committee on Justice be allowed to continue with the impeachment proceedings. Needless to say, the resultant damages and injury that the petitioner may suffer, and is actually suffering, cannot be quantified in any manner.

238. There is extreme urgency to issue a Temporary Restraining Order and/or Writ of Preliminary Injunction in this case considering that the respondent Committee on Justice has given all indications that it will proceed with its "mini-trial" on dates it had already fixed on April 14, 22, and 29, 2026. In fact, said respondent had already ordered certain individuals to provide testimony in their mini-trial and produce evidence therein through the issuance of subpoenas during its hearing last March 25, 2026. All these indicate that there is paramount necessity to urgently issue an injunctive writ against the respondents enjoining them from conducting any and all proceedings relative to the subject impeachment complaints of this Petition.

239. Unless urgently restrained, the respondents HOR and Committee on Justice will continue to trample upon not only the petitioner's constitutionally-guaranteed rights but also of all other individuals subject of the respondent Committee on Justice's compulsory processes. The continuation of the proceedings before the House Committee on Justice will continue to harm not only the petitioner but also of the individuals subject of the subpoenas it issued.

240. The grave abuse of discretion amounting to lack or excess of jurisdiction committed by the respondents House of Representatives and Committee on Justice has placed not just the Vice President but the entire nation on the brink of uncertainty. When the Vice President was elected in 2022, she was the overwhelming people's choice, garnering the highest number of votes by any elected official in Philippine history. Today, this Honorable Court, as the final bastion of justice and protector of all constitutional rights, holds the power either to uphold the people's choice or to silence the people's voice.

241. How this Honorable Court decides the fate of the Vice President will not just reflect the individual beliefs of each Justice but also echo the sovereign will of the people and restore the Filipino people's faith in government and the institutions that lead them. It is a pivotal point in our history and it is the Supreme Court alone that can define the quality of our democracy and determine the course of our nation.

processes that our Constitution and laws have always aimed to protect.

243. The petitioner is ready, able, and willing to post a bond in the respondents' favor in an amount to be determined by this Honorable Court, to the effect that she will pay all damages that the respondents may suffer by reason of the temporary restraining order and preliminary injunction should it finally be determined that the petitioner is not entitled thereto.

Explanation for Service

Copies of this Petition for *Certiorari* and Prohibition were served through accredited courier due to distance and time constraints that render personal service impractical and inefficient.

Reliefs

WHEREFORE, it is respectfully prayed that:

(i) Upon the filing of this Petition, a temporary restraining order be issued to enjoin respondents HOR and Committee on Justice from proceeding with the impeachment proceedings before them and to desist from doing any and all acts relative and pursuant thereto;

(ii) After due proceedings, issue a writ of preliminary injunction enjoining all respondents from continuing or acting in pursuance of the impeachment proceedings relating to the Saballa and Cabrera Complaints for being unconstitutional, and from doing any and all acts relative and pursuant thereto, including any trial, mini-trial, or so-called preliminary investigation, issuance and enforcement of compulsory processes, and such other acts or incidents;

(iii) Sections 7 and 8 of the Rules of Procedure in Impeachment Proceedings, House of Representatives 19th Congress, adopted by the 20th Congress as well as the "Guidelines" issued by the respondent Committee on Justice be declared void and unconstitutional;

(iv) Thereafter, issue a final injunction, nullifying and setting aside the impeachment proceedings relating to the Saballa and Cabrera Complaints for being unconstitutional, and enjoining the respondents House of Representatives, Committee on Justice and the Senate of the Philippines, from doing any and all acts relative and pursuant thereto.

JUST IN: Atty. Michael Poa, counsel of Vice President Sara Duterte, confirms that a Petition for Certiorari and Prohibition was filed before the Supreme Court amid the ongoing proceedings before the House committee on justice.

“To be clear, this is not about avoiding the process. This is about ensuring that the process itself complies with the Constitution. The House has the power to initiate impeachment, but that power is not without limits,” Poa said. | via Bella Cariaso

TO THE MOON AND BACK!

NASA released some close-up photos of the Moon, taken by the Artemis II astronauts on Monday.

“On April 6, 2026, the Artemis II astronauts flew around the Moon, seeing parts of it that had never been viewed by human eyes,” they wrote on Wednesday.

In some shots, a crescent Earth was seen peeking behind a hemisphere of the Moon. The close-up photos also revealed jagged circles of craters on the gray lunar surface. (Instagram/NASA)

CB-20 after restoration

Mališan was a CB-class midget submarine that served in the Yugoslav Navy (JRM) from 1953 to 1957. Laid down for the Italian Navy during World War II as *CB-20*, she was intended for harbour defence and anti-submarine warfare tasks, but was incomplete at the time of the Italian surrender in September 1943. The unfinished boat was captured by the Germans and completed by March 1944. Handed over to the navy of the Italian Social Republic – a wartime German puppet state – she was captured by Yugoslav forces at the end of the war. She was repaired and commissioned in a training role by the JRM. In 1959, she was donated to the Technical Museum in Zagreb as a museum ship, and was on display for almost 50 years before undergoing an extensive restoration between 2008 and 2010. The restored submarine *(pictured)* returned to public display on 8 April 2010. The decision to revert to its original Italian paint scheme and designation as part of the restoration has been criticised. ***(Full article...)***

"[W]e are reminded that our expressions of devotion must always be guided by compassion and responsibility."

The Diocese of Kalookan has issued a statement following an incident during the "Salubong" ritual last Easter Sunday in a Malabon parish where a pigeon was tied to a cluster of balloons and released into the air.

The parish vows to "discontinue the practice" and that there will be "no more balloon-flying in future celebrations." (📷: Roman Catholic Bishop of Caloocan/Facebook)

DIOCESE OF KALOOKAN
San Roque Cathedral Compound, A. Mabini St. corner 10th Avenue, Caloocan City, 1400, Philippines
Telephone: (02) 8288-9116 Email Address: info@dioceseofkalookan.org

OFFICIAL STATEMENT

The Diocese of Kalookan wishes to address the concerns raised regarding the balloon-flying incident that occurred during the Salubong ritual this past Easter Sunday at the Diocesan Shrine and Parish of the Immaculate Conception, Malabon.

We extend our sincere apology for what transpired.

We also clarify that Cardinal Pablo Virgilio David was present during the celebration but witnessed only the unveiling from below the pagoda and was not aware of what took place afterward.

The parish has long practiced the use of a live pigeon, rather than a child dressed as an angel for several decades, even since after the Second World War, as a safer and less distressing alternative. It had been presumed that the dove would be released immediately after the unveiling.

However, it has since been brought to our attention that the pigeon was instead tied to a cluster of balloons, with its wings restrained, and released into the air. This act is regrettable.

The Bishop has expressed his objection to this practice, noting that it is not only harmful to the animal but also to the environment, particularly to marine life that may ingest deflated balloons.

In response, the parish has committed to discontinue this practice. There will be no more balloon-flying in future celebrations, and the dove will be released immediately after the unveiling.

As a community of faith, we are reminded that our expressions of devotion must always be guided by compassion and responsibility. In caring for God's creation, we honor the Risen Lord who calls us to protect and cherish every form of life.

We thank those who brought this matter to our attention and assure the faithful that appropriate steps are being taken to prevent its recurrence.

Powering progress for our community!

A productive meeting last day with ILECO regarding the electrification of the new public market. This initiative is a vital step toward ensuring a safe, efficient, and fully functional space for our vendors and consumers.

With reliable electricity, we are paving the way for better business opportunities, improved services, and a more vibrant local economy.

We look forward to the continued collaboration as we bring this project to life for the benefit of our community.

Malamang ay pinag-ipunan nila ito, oo, pero sa ekonomiyang ito, sa taas ng presyo ng gas at bilihin, sa nangyayari sa mundo, sa hirap na pinagdadaanan ng mga kababayan natin, hindi ito ang panahon para detalyehin pa at ibida ang mga ganitong bagay. Jonathan Roumie Knelt to Receive the Eucharist—But the Priest Told Him to Stand

Jonathan Roumie, best known for his role in The Chosen, recounted an experience where he was not allowed to receive Holy Communion while kneeling.

He shared that he felt a deep prompting from the Holy Spirit to approach the Eucharist with greater reverence. At a recent Mass, he chose to kneel when receiving Our Lord, but the priest unexpectedly told him to stand.

Roumie complied, but afterward respectfully asked the priest why kneeling was not permitted. The priest explained that allowing it might lead others to follow their own personal preferences.

PHILIPPINE AIRLINES TO RESUME MANILA-RIYADH FLIGHTS

Inanunsyo ng Philippine Airlines na muling babiyahe ang kanilang Manila-Riyadh flights simula April 10, kasunod ng mga pagbabago sa sitwasyon sa Middle East region.

Pansamantalang gagamit ang PAL ng alternative flight route, kung saan magkakaroon ng brief technical stop sa Bangkok para sa refueling.

"No deplaning is required; passengers will remain on board while the aircraft refuels before continuing to Riyadh," ayon sa airline.

The parish has long practiced the use of a live pigeon, rather than a child dressed as an angel for several decades, even since after the Second World War, as a safer and less distressing alternative. It had been presumed that the dove would be released immediately after the unveiling.
However, it has since been brought to our attention that the pigeon was instead tied to a cluster of balloons, with its wings restrained, and released into the air. This act is regrettable.
The Bishop has expressed his objection to this practice, noting that it is not only harmful to the animal but also to the environment, particularly to marine life that may ingest deflated balloons.
In response, the parish has committed to discontinue this practice. There will be no more balloon-flying in future celebrations, and the dove will be released immediately after the unveiling.
As a community of faith, we are reminded that our expressions of devotion must always be guided by compassion and responsibility. In caring for God's creation, we honor the Risen Lord who calls us to protect and cherish every form of life.
We thank those who brought this matter to our attention and assure the faithful that appropriate steps are being taken to prevent its recurrence.

In issuing the writ, the SC applied the precautionary principle based on technical findings showing that the respondents' activities have significantly increased surface runoff, erosion, and sedimentation within the watershed system. Reports indicated that these activities have destroyed cultivated crops, vegetation, and fruit-bearing trees that serve as wildlife habitats.

The SC noted that a change in the natural landscape of just a portion of a protected forest reserve threatens the stability of the Angat River-Bustos Dam

Ang Pilipinas ay isa sa may pinakamataas na presyo ng langis sa Asya dahil sa buwis na pinapataw ng ating gobyerno.

Habang ang ibang bansa ay nagbibigay ng subsidiya para pababain ang presyo ng langis, ang Pilipinas ay may pinapatong na 12% VAT na lalo pang nagpapamahal sa langis.

Napatunayan na rin na limitado ang kapasidad ng gobyerno na magbigay ng ayuda, kaya mas mabuting bawasan na lang ang buwis para direktang makatulong sa tao.

Malinaw ang solusyon: Ibaba ang VAT sa 10% para sa lahat ng bilihin, o isuspinde ang VAT sa langis.

Kapag gusto ng gobyerno, may paraan, tulad ng pagbawas ng gastos at pangongolekta ng mas progresibong buwis.

Ipakita natin sa gobyerno na marami tayong sumusuporta rito at hindi tayo titigil hangga't hindi napapababa ang VAT.

@realDonaldTrump
A big day for World Peace! Iran wants it to happen, they’ve had enough! Likewise, so has everyone else! The United States of America will be helping with the traffic buildup in the Strait of Hormuz. There will be lots of positive action! Big money will be made. Iran can start the reconstruction process. We’ll be loading up with supplies of all kinds, and just “hangin’ around” in order to make sure that everything goes well. I feel confident that it will. Just like we are experiencing in the U.S., this could be the Golden Age of the Middle East!!! President DONALD J. TRUMP

It will take months for jet fuel supplies and prices to normalise even with the Strait of Hormuz open, the head of the International Air Transport Association (IATA) said Wednesday.

The Strait of Hormuz, a vital shipping route for oil, has been virtually paralysed for weeks by the Middle East war, pushing up prices for crude and related products.

IATA director general Willie Walsh told reporters in Singapore it was difficult to say how long fuel supplies would take to recover, but "it's not going to happen quickly".

"It will still take a period of months to get back to where supply needs to be given the disruption to the refining capacity in the Middle East," he said.

"I don't think it's going to happen in weeks," Walsh added.

Oil prices plunged on Wednesday after the United States and Iran agreed to a two-week ceasefire that will see Tehran temporarily reopen the Strait of Hormuz. | via Agence France-Presse

CHAIR IN CROSSFIRE

As the Philippines takes on a larger role in ASEAN, it steps into a region shaped by competing interests, rising tensions, and unresolved disputes. Leadership in this space is not just about hosting meetings—it means navigating pressure from global powers while keeping regional cooperation intact. Every decision now carries weight beyond diplomacy, with consequences that extend far beyond the table.

CHAIR IN CROSSFIRE
As the Philippines leads ASEAN in 2026, it must navigate a region increasingly pulled between South China Sea tensions and the growing rivalry between the United States and China.
How Manila handles this moment could either deepen divisions or strengthen ASEAN unity.
/assortedge.org

On January 1, the Philippines assumed the rotating chairship of ASEAN, giving Manila the power to set the regional agenda and host hundreds of meetings this year.
Officials say around 650 ASEAN-related meetings and events are expected to take place in 2026.

But the timing is far from calm.
According to the ISEAS State of Southeast Asia Survey 2025, 51.6% of respondents across the region identified China's assertiveness in the South China Sea as ASEAN's top geopolitical concern. In the Philippines, the figure reached 90.3%.

On the ground, tensions are no longer abstract.
Filipino fisherfolk continue to face harassment in contested waters, while reports of foreign surveillance and espionage activities have raised alarms over national security.

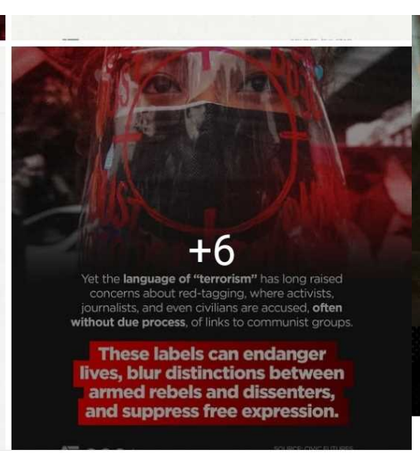
The Armed Forces of the Philippines reported neutralizing 413 NPA members and supporters from January 1 to March 5, with 398 surrendering and nine killed in operations.
In military terms, "neutralized" means surrender, capture, or death.



+6
Yet the language of "terrorism" has long raised concerns about red-tagging, where activists, journalists, and even civilians are accused, often without due process, of links to communist groups.
These labels can endanger lives, blur distinctions between armed rebels and dissenters, and suppress free expression.

“WE WILL TAKE FULL ADVANTAGE OF THE 2 WEEKS”

Sa panayam ni Palace Press Officer Usec. Claire Castro kay Pangulong Ferdinand Marcos Jr. ngayong Miyerkoles, April 8, sinabi ng pangulo na sasamantalahin nila ang 2-week ceasefire sa pagitan ng United States at Iran sa Middle East upang mapataas ang suplay ng produktong petrolyo.

“We are all hoping and praying that the 2-week ceasefire will extend further if the talks go well,” sabi ng pangulo.

“Hopefully, we can do something about the pricing kasi luluwag nga ang market,” dagdag niya.

Nagbigay rin ng karagdagang update ang pangulo tungkol sa kaniyang kalusugan. Aniya, maayos naman daw ang kaniyang pakiramdam at ilang buwan na siyang nakabalik sa kaniyang “regular routine.”

Republic of the Philippines
OFFICE OF THE PRESIDENT
COMMISSION ON HIGHER EDUCATION

MEMORANDUM FROM THE OFFICE OF THE CHAIRPERSON
No. 117, series of 2026

TO: PRESIDENTS AND/OR OFFICERS-IN-CHARGE OF HIGHER EDUCATION INSTITUTIONS
CHED CENTRAL AND REGIONAL DIRECTORS

SUBJECT: CHED ADVISORY ON THE IMPLEMENTATION OF FLEXIBLE LEARNING DURING THE NATIONAL ENERGY EMERGENCY

DATE: 07 APRIL 2026

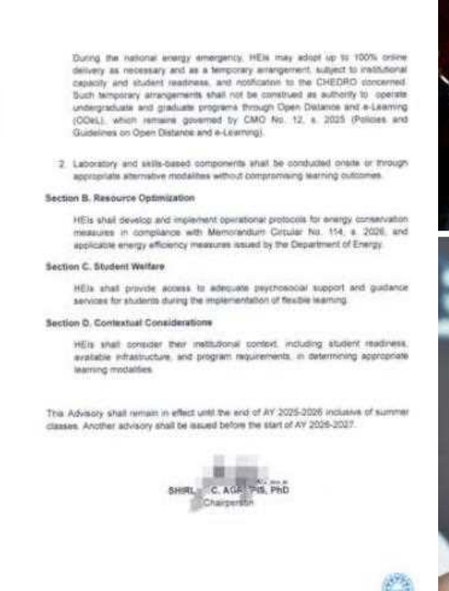
Pursuant to Executive Order No. 110, s. 2026 declaring a state of national energy emergency, and in light of its impact on higher education operations, the Commission on Higher Education (CHED), under Republic Act No. 7722 and existing CHED policies, hereby issues this Advisory to guide Higher Education Institutions (HEIs) in ensuring academic continuity while safeguarding student welfare, program outcomes and institutional sustainability.

This Advisory does not introduce new regulatory requirements. It clarifies the flexibility of HEIs to adopt appropriate learning modalities under existing CHED issuances.

Section A. Learning Continuity

1. HEIs are encouraged to utilize and continuously upgrade their approved Learning Continuity Plans (LCPs) in implementing flexible learning modalities, taking into account institutional capacity and student readiness, including access to devices, connectivity, and learning support.

   CHED reiterates the existing guidelines on flexible learning including: CHED Memorandum Order (CMO) No. 4, s. 2020 (Guidelines on the Implementation of Flexible Learning); CMO No. 8, s. 2022 (Sustaining Flexible Learning in Higher Education); and CMO No. 4, s. 2023 (Updated Guidelines on Onsite Learning in Higher Education).



During the national energy emergency, HEIs may adopt up to 100% online delivery as necessary and as a temporary arrangement, subject to institutional capacity and student readiness, and notification to the CHEDRO concerned. Such temporary arrangements shall not be construed as authority to operate undergraduate and graduate programs through Open Distance and e-Learning (ODeL), which remains governed by CMO No. 12, s. 2025 (Policies and Guidelines on Open Distance and e-Learning).

2. Laboratory and skills-based components shall be conducted onsite or through appropriate alternative modalities without compromising learning outcomes.

Section B. Resource Optimization

HEIs shall develop and implement operational protocols for energy conservation measures in compliance with Memorandum Circular No. 114, s. 2026, and applicable energy efficiency measures issued by the Department of Energy.

Section C. Student Welfare

HEIs shall provide access to adequate psychosocial support and guidance services for students during the implementation of flexible learning.

Section D. Contextual Considerations

HEIs shall consider their institutional context, including student readiness, available infrastructure, and program requirements, in determining appropriate learning modalities.

This Advisory shall remain in effect until the end of AY 2025-2026 inclusive of summer classes. Another advisory shall be issued before the start of AY 2026-2027.

CRATERS INTEGRITY AND CARROLL

The crew of Artemis II proposed two names for craters they spotted on the surface of the Moon which were initially unnamed.

The first name proposed was "Integrity," named after the call sign of the crew on the mission.

The second crater name given was "Carroll," proposed to be named after Artemis II Commander Reid Wiseman's late wife.

Shehbaz Sharif
@CMShehbaz
Violations of ceasefire have been reported at few places across the conflict zone which undermine the spirit of peace process. I earnestly and sincerely urge all parties to exercise restraint and respect the ceasefire for two weeks, as agreed upon, so that diplomacy can take a lead role towards peaceful settlement of the conflict.
